PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of professional experience delivering production web applications end to end — from responsive React.js, Next.js and TypeScript interfaces to RESTful APIs built with C#/.NET, Node.js and Django REST Framework on Microsoft SQL Server, PostgreSQL and MongoDB. Built CRM, HRMS and municipal management platforms and shipped 12+ custom WordPress websites for clients across e-commerce, healthcare, finance and education. Recognized for clean, maintainable code, structured debugging and performance optimization within Agile teams.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C#, Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Tailwind CSS, Responsive & Mobile-First Design, RTL / Multilingual UI, Flexbox, CSS Grid

Backend & APIs: ASP.NET / .NET (C#), Node.js, Express.js, Django, Django REST Framework, RESTful API Design & Integration, WordPress (Custom Themes & Plugins)

Databases & DevOps: Microsoft SQL Server, PostgreSQL, MongoDB, Docker, IIS, Git, Azure DevOps (TFS)

Practices & Tools: Agile / Scrum, Jira, Figma, Adobe Photoshop, Debugging, Performance Optimization, Clean Code, OOP, SDLC

SEO & Analytics: Technical & On-Page SEO, Google Search Console, Google Analytics

PROFESSIONAL EXPERIENCE

Full-Stack Developer — **Amard** **May 2025 – Present**

Amol, Iran

- Develop and maintain production web applications with React.js, Next.js and TypeScript on top of C#/.NET services, RESTful APIs and Microsoft SQL Server, hosted on IIS.
- Built and maintain the **Municipality Management System** (shahrvandyar.com), a municipal platform for property registration, citizen inquiries and administrative workflows.
- Own features end to end — from API contracts and database queries to responsive UI — in an Agile workflow managed through Azure DevOps (TFS).
- Diagnose and resolve client-server data-flow, API integration and application defects across the full stack, improving release stability.
- Refactor reusable components and responsive layouts to improve rendering performance and cross-device consistency.

Full-Stack Developer — **ISIRAN** **Dec 2024 – May 2025**

Tehran, Iran

- Designed, consumed and validated RESTful API workflows connecting React applications to Node.js backend services.
- Improved server-side business logic and clarified data flow between frontend components and backend services.
- Reduced maintenance overhead by introducing reusable components and a structured full-stack debugging process.

Full-Stack Developer — **Parand Tech Group** **May 2025 – Dec 2025**

Tehran, Iran

- Redesigned the company's **ITSM software** interface, delivering clearer workflows, better usability and consistent visual design.
- Built and shipped responsive web features integrated with backend services and REST APIs.
- Resolved cross-browser rendering and client-server integration issues using modern JavaScript, Flexbox, CSS Grid and media queries.
- Optimized interface performance to keep the product stable through continuous release cycles.

Full-Stack Developer — **Iran Fava Gostaresh** **Sep 2024 – Apr 2025**

Tehran, Iran

- Implemented complex business logic in React.js and Next.js and integrated it with backend REST APIs.
- Partnered with backend engineers to ensure accurate, timely data exchange between services and user interfaces.
- Profiled and removed performance bottlenecks, improving page-load speed and overall application reliability.

WordPress Developer — **Iranian Etemad** **Jun 2024 – Nov 2024**

Tehran, Iran

- Delivered custom WordPress themes and plugins for e-commerce and corporate websites across multiple client projects.
- Improved SEO, site speed and reliability using Google Search Console and Google Analytics, and kept sites maintainable post-launch.

Programming Intern — **Amard** **Jul 2022 – Aug 2023**

Amol, Iran

- Built desktop applications in C# (.NET), strengthening foundations in OOP, debugging, clean code and the software development life cycle (SDLC).

KEY PROJECTS

- **Real Estate CRM** (github.com/13Armin85/node-crm) — *MongoDB, Express.js, React, Node.js* — CRM for properties, leads and partner customers with a dynamic form builder and multilingual RTL support.
- **HRMS / HR Panel** (github.com/13Armin85/hr-panel) — *Next.js, Django REST Framework* — HR system covering recruitment, candidates, organizational units, positions and admin workflows.
- **Corporate CRM** (github.com/13Armin85/company-crm) — Work-management platform for projects, tasks, teams and internal workflows.
- **Next.js Shop** — *Next.js, TypeScript* — E-commerce storefront. **Member Management App** — *TypeScript* — member records and profiles. **Portfolio** (arminnataj.ir) — *React, TypeScript*.
- **WordPress Portfolio (12 production sites):** negahhospital.com (Healthcare), iranianetemad.ir (Finance), amardco.com (Software), raeesiedu.com (Education), berkehketab.ir (Books), zarabannoor.com (Lighting), goldaneh.ir (Jewelry), ninielma.com (Baby Products), stpilates.ir (Fitness), teknololeh.ir (Industrial), paionco.ir (Beauty), 19-16.ir.

EDUCATION

B.Sc. in Electrical Engineering — Islamic Azad University, Central Tehran Branch **2024 – Present**

High School Diploma in Mathematics & Physics — Tehran, Iran **2020 – 2023**

LANGUAGES

Persian — Native | English — Advanced (Professional Working Proficiency)

SOFT SKILLS

Problem Solving & Analytical Thinking | Cross-Functional Collaboration | Clear Communication | Adaptability & Continuous Learning | Time Management
